

AIMO Proof Pilot — Final Grade

Problem (#_ID): 2_ALTORO

Submission: team_4

Scoring scale (0/1/6/7) — two binary decisions:

Step 1. Is the solution essentially complete?

- If **no**: award **1** for significant partial progress, otherwise **0**.
- If **yes**: award **7**, or **6** if there is a minor error or omission.

Grade against the **markscheme** (docs/markschemes.pdf).

1. Final mark

Final mark (choose one):

2. Reasoning

Justify the mark with explicit reference to the markscheme points (e.g. **ME1**) where possible.

The solution is ultimately correct. The only question is whether the limited detail in computing the coordinates of E , F and X counts as a minor or a trivial error. The minor-error bar for this problem is comparatively high (similar omissions were tolerated elsewhere, e.g. **team_3**, which set out very similar computations), so we treat it as trivial and award 7.
