

# AIMO Proof Pilot — Final Grade

Problem (#\_ID): 1\_DIVALL

Submission: team\_2

---

Scoring scale (0/1/6/7) — two binary decisions:

Step 1. Is the solution essentially complete?

- If **no**: award **1** for significant partial progress, otherwise **0**.
- If **yes**: award **7**, or **6** if there is a minor error or omission.

Grade against the **markscheme** (docs/markschemes.pdf).

## 1. Final mark

Final mark (choose one):

## 2. Reasoning

Justify the mark with explicit reference to the markscheme points (e.g. ME1) where possible.

There is no correct proof of the partial-progress result (the script does NPP3), and the final answer is wrong. Nothing reaches the partial-progress bar, so this scores 0.
